The Electric Power Supply Association (EPSA) is the national trade association representing America's competitive power suppliers. EPSA members provide about 150,000 MW of reliable and competitively priced electricity from environmentally responsible facilities using a diverse mix of fuels and technologies including natural gas, wind, solar, hydropower, geothermal, storage, biomass, and coal. EPSA seeks to bring the benefits of competition to all power customers. Learn more at www.epsa.org and connect with us on LinkedIn and Twitter @EPANews.
