Washington, D.C.

COMPETITIVE POWER SUMMIT

PRESENTED BY

Join the Electric Power Supply Association (EPSA) for its second annual Competitive Power Summit in Washington, DC, featuring leaders and expert panel discussions on the key issues facing U.S competitive power. The Summit brings government, industry, NGOs, academic, and media stakeholders together to consider the economic and environmental benefits competitive power has brought to the nation and how the energy landscape will evolve in the coming decades.

2023 TOPICS INCLUDE:

- Maintaining Reliability Through Reality-Based Planning*
- Reducing Customer Cost Burden Through the Energy Transition*
- Advancing Innovation and Technology Through Competition*
- The Role of Independent Power Producers in a Post-Inflation Reduction Act World*

Highlights from the Inaugural Competitive Power Summit

Nearly 200 attendees, with speakers including:

- America's leading competitive power generation companies
- Brookfield Renewable U.S.
- Energy + Environmental Economics
- Federal Energy Regulatory Commission
- Harvard Kennedy School of Government
- ISO New England
- National Association of State Utility Consumer Advocates
- Natural Resources Defense Council
- North American Electric Reliability Corporation
- PJM Interconnection
- R Street Institute
- U.S. Chamber of Commerce
- And more!*

The Electric Power Supply Association (EPSA) is the national trade association representing America's competitive power suppliers. EPSA members provide about 150,000 MW of reliable and competitively priced electricity from environmentally responsible facilities using a diverse mix of fuels and technologies including natural gas, wind, solar, hydropower, geothermal, storage, biomass, and coal. EPSA seeks to bring the benefits of competition to all power customers. Learn more at www.epsa.org and connect with us on LinkedIn and Twitter @EPANews.
